제목: Marathon Special Products Announces New Web Based Product Selector Tool
첨부 파일: OPO CONF Announcement.pdf

Please see attached letter detailing our NEW Power Block product selector tool. Please pass this link on to all of your purchasing and sales teams so that they will have the benefit of quickly finding the power block to fit their application needs.

We welcome any feedback to help us better serve you and your customers.

Thank you.

October 23, 2018

Regal's Marathon® Special Products (MSP) is excited to share updated online information with consumers. An online Product selector tool "Configurator" was launched on the MSP home website on Monday October 22, 2018. This user friendly selector tool is designed to assist customers in identifying the proper product by filtering through the many options that MSP offers within their Power Distribution Block line.

The configurator enables engineers and sales professionals supporting them to quickly find a power distribution product to meet the application needs. MSP is encouraging distributor partners to send the link below to all of your sales teams as well as your MSP customers to simplify the product selection process and drive growth for us all.
